

Maria Goeppert-Mayer was a member of the National Academy of Sciences and a corresponding member of the Akademie der Wissenschaften in Heidelberg. Goeppert-Mayer has received honorary degrees of Doctor of Science from Russell Sage College, Mount Holyoke College and Smith College. The development of the nuclear shell model of atomic nuclei was an achievement of hers that was honored when Goeppert-Mayer became the third woman ever awarded the Nobel Prize for physics, in 1963.
